

# Knee pain:

is robotic assistance right for you?

**Surgicare of Boca Raton**, a State of the Art Surgical Center, offers partial and total knee replacement utilizing the **NAVIO° Surgical System - a CT-Free robotic-assisted platform**. The NAVIO° Surgical System is a tool your surgeon uses to correctly size and position the total or partial knee implant with computer and robotic assistance. Attend to find out if you qualify for a partial or total knee replacement, you may experience less pain<sup>1</sup>, a more normal feeling knee<sup>1</sup>, smaller incisions<sup>2</sup>, quicker rehabilitation<sup>1</sup>, **and go home the same day!**

**Doctors Gupta, Saperstein and Kephart** will help you understand your outpatient options for knee care and if you are a candidate for a partial knee replacement. They will discuss the latest technologies available and answer many of your questions on **Thursday November 2nd, 2017 - from 6:00 p.m. - 7:30 p.m.**

**Attend our free seminar to learn more about this outpatient option.**

call **561-257-0264** to register (space is limited!)

Featuring Manish Gupta, M.D., Alan Saperstein, M.D., and Curtis Kephart, M.D.

**Thursday, Nov. 2nd, 2017**  
**6:00 to 7:30 pm**

Refreshments and appetizers will be served

**Event Location:**  
**Boca Raton Public Library**  
400 NW 2nd Avenue  
Boca Raton, FL 33432

Individual results may vary. There are risks associated with any surgical procedure including NAVIO-enabled Partial Knee Replacement. NAVIO is not for everyone. Children, pregnant women, patients who have mental or neuromuscular disorders that do not allow control of the knee joint, and morbidly obese patients should not undergo a NAVIO procedure. Consult your physician for details to determine if NAVIO is right for you.
